Letter by E-mail

AeA Europe represents leading European high-tech operations with US parentage. Collectively we invest Euro 100 bn in Europe and employ approximately 500,000 Europeans. AeA Europe Member companies are active throughout the high-technology spectrum, from software, semiconductors and computers to Internet technology, advanced electronics and telecommunications systems and services. Our parent company, AeA, is the oldest and largest US high-tech association (2500 + companies).

Dear Mr Kolb

Re: EuP Lot 6, Standby, Draft implementing measure to be discussed at Consultation Forum 19 October 2007

AeA Europe would like to add its support to the EICTA position paper dated 12 October (attached for ease of reference), which in turn supports and draws upon the Orgalime position paper.

We may have further comments to submit in the 3 week window following the Consultation Forum.

With kind regards

James Lovegrove
