

Panel 1: Foundations of future policy

Katja Schumacher (Öko-Institute), Julia Repenning (Öko-Institute) and
Lars J Nilsson (Lund University) LU

Final Plenary

You have to be careful if you don't know where you are going because you might not get there (Yogi Berra)

Scenarios future systems and dynamics of change

- Energy efficiency and 100 % RES systems!
- Energy efficiency risk free investment
- China becomes a leader?

Policy remains
a challenge

Low carbon
buildings

- Room for improvement
- Rational policies in erratic political environments.
- From efficiency approaches to transformational perspective
- More skilled polish plumbers in Britain
- Don't get too smart and forget your stupid cavity walls

Communication in a different way.

- Communicate, communicate, communicate

- Changing the conversation is important
- Words without thoughts never to heaven go

Sufficiency as a way forward

Mind your business

- “Sufficiency” is actually about sustainable transport, flexible housing and healthy diets
- Conditio sine qua non (indispensable and essential)

- Frame your proposition, make it strategic.
- We need more analysis and research

CONSUMPTION, EFFICIENCY & LIMITS

Thank you!
