

ecee 2019 Summer Study – Displays session

List of displays to be presented Tuesday 4 June 15.00–17.00

Panel	ID	Title	Main author	Presenter
Panel 1	1-028-19	"Energy visualization" as a tool to influence the energy use in a municipality kitchen	Gireesh Nair	Gireesh Nair
Panel 1	1-070-19	A review of the residential efficient lighting programme rollout in South Africa	Theodore Covary	Theodore Covary
Panel 1	1-211-19	Non-energy benefit evaluation: the experience of a multi-utility".	Dario Di Santo	Dario Di Santo
Panel 1	1-221-19	Exploratory analysis of family-related activities during peak electricity periods	Máté Lórinicz	Máté Lórinicz
Panel 1	1-293-19	Energy equality and energy sufficiency: new policy principles to accelerate the energy transition	Giuseppe Pellegrini Masini	Giuseppe Pellegrini Masini
Panel 1	1-387-19	Building energy consumption quotas: A policy tool toward sufficiency?	Shan Liu	Shan Liu
Panel 1	1-391-19	Making more of middles: advancing the middle-out perspective in energy system transformation	kathryn Janda	kathryn Janda
Panel 2	2-001-19	The development of energy efficiency policies in developing countries	Erwin Cornelis	Erwin Cornelis
Panel 2	2-026-19	Facts are useless – without a story	Hans Nilsson	Hans Nilsson
Panel 2	2-123-19	Is efficiency+sufficiency sufficient for Iran?	Faraz Sojdei	Faraz Sojdei
Panel 2	2-178-19	Dressing for the anthropocene: Mitigating climate change through cooler clothing	Deborah Poskanzer	Deborah Poskanzer
Panel 2	2-206-19	Investigating the energy efficiency first principle - whose idea of energy efficiency is coming first?	Tessa Dunlop	Tessa Dunlop
Panel 2	2-236-19	Is 1+1 more than 2? The German-Japanese Energy Transition Council (GJETC), a role model for bi-national cooperation	Stefan Thomas	Stefan Thomas
Panel 2	2-253-19	Quantifying the health and performance gains of enhanced indoor environmental quality in offices, schools and hospitals	Jonathan Volt	Jonathan Volt
Panel 2	2-305-19	Implications of appliance efficiency in energy access cost modelling	Sam Grant	Sam Grant
Panel 3	3-129-19	Building energy efficiency policy in Chinese cities and comparison with international cities	Wei Feng	Mark Levine
Panel 3	3-184-19	Trade wars of 2020s – A new hope for energy efficiency	Teemu Hartikainen	Teemu Hartikainen
Panel 3	3-204-19	The effect of energy labelling on consumers' decision: a field experiment in Spanish appliances' retailers	Maria del Mar Solá	Maria del Mar Solá
Panel 4	4-035-19	The need of harmonization in Energy Efficiency policies: building a taxonomy for European industry	Anna Realini	Simone Maggiore
Panel 4	4-092-19	What role do transaction costs play in energy efficiency improvements and how can they be reduced?	Katja Hünecke	Katja Hünecke
Panel 4	4-237-19	Approach, Learnings and Way Forward for the State Energy Efficiency Index in India	Sangeeta Mathew	Sangeeta Mathew
Panel 4	4-369-19	CREATE: A toolbox to develop, implement and monitor advanced energy and climate goals and strategies	Martin Jakob	Martin Jakob
Panel 4	4-409-19	CO2 assessment methods for electric heating in France	Florence Khayat	Florence Khayat

eceee 2019 Summer Study – Displays session

List of displays to be presented Tuesday 4 June 15.00–17.00

Panel 5	5-033-19	Is heat storage with a possibility of district heating beneficial to Solar Plus micro grids	Marko Kovač	Marko Kovač
Panel 5	5-056-19	How much demand-side flexibility can a community deliver? A multi-agent modeling approach	Inês Reis	Inês Reis
Panel 5	5-096-19	Don't waste the water, use wastewater – excess heat distribution for private households through sewer networks	Markus Fritz	Markus Fritz
Panel 5	5-342-19	Forecasting and technoeconomic optimization of PV-battery systems for commercial buildings	Jonathan Fagerström	Jonathan Fagerström
Panel 5	5-354-19	Smart community energy schemes : a case study based model	J Richard Snape	J Richard Snape
Panel 5	5-410-19	Self-sufficient microgrid - Feasibility study on Atlantech low carbon district	Valentin Gavan	Florence Khayat
Panel 6	6-063-19	CODEC – Modelling consumer decisions towards energy technology adoption	Suzanne Brunsting	Suzanne Brunsting
Panel 7	7-121-19	The influence of uncertainties related to the inputs of the French EPC's calculation method – An analysis for individual houses	Maxime Raynaud	Maxime Raynaud
Panel 7	7-143-19	Indoor environmental quality as a mean to catalyse the acceptance & implementation of the major new EPBD provisions	Vivian Dorizas	Vivian Dorizas
Panel 7	7-162-19	The time dimension in deep renovation: evidence and analysis from across the EU	Tina Fawcett	Tina Fawcett
Panel 7	7-222-19	Energy decisions in heating consumption. Results from fuzzy cognitive maps	Helena Lopez Bernabe	Helena Lopez Bernabe
Panel 7	7-252-19	Decoding India's residential building stock characteristics to enable effective energy efficiency policies and programs	Sandeep Kachhawa	Sandeep Kachhawa
Panel 7	7-382-19	EPC+: Linking households to archetypes in retrofit decision-making support	Hui Ben	Hui Ben
Panel 8	8-158-19	When energy efficiency refurbishment projects foster sustainability: A higher education institution case study	Marta Lopes	Marta Lopes
Panel 8	8-240-19	Correlating room air conditioner energy consumption with thermostat setting to encourage occupant behavioural change (...)	Satish Kumar	Satish Kumar
Panel 8	8-353-19	Activity-based offices: synergies and trade-offs between energy and efficiency and employees' work environment	Magdalen Boork	Magdalen Boork
Panel 8	8-368-19	SMELL (Using Smell to choose wELL) – Alternative ways of communicating energy and climate solutions	Erica Löfström	Erica Löfström
Panel 8	8-411-19	Thermal energy storage for cooling applications optimization using Artificial Intelligence algorithm	Jérémie Fricker	Sébastien Sailler
Panel 9	9-030-19	Designing a market transformation program towards efficient cooling in Indonesia	Virginie Letschert	Virginie Letschert
Panel 9	9-132-19	Can efficiency be sufficient for African cooking?	Robert Van Buskirk	Robert Van Buskirk
Panel 9	9-140-19	Tackling energy efficiency in professional appliances	Eva Geilinger	Eva Geilinger
Panel 9	9-395-19	Boosting African regional markets of highly efficient appliances through effective energy efficiency and trade policy	Ana Maria Carreno	Ana Maria Carreno
Panel 9	9-404-19	CLASP Policy Database – an appliance energy efficiency tool for collaboration and innovation	Amanda McCrum	Amanda McCrum
